

**At CBD Product Link, we offer only the highest quality of flower that is grown with only organic fertilizers and zero pesticides.**

We offer a variety of strains with various cannabinoids and terpenes presenting unique appearance, smell, taste and effect. This combination of all these is referred to as the entourage effect. We recommend having customers try as many as possible to choose which strain at which times will be optimal for them.

These pre-packaged offerings are great for our customers who want the simple approach to selling flower without having to weigh it out for each customer. These offers are packaged in glass to not impart any plastic smell or taste onto the flower, and prevent the trichomes from sticking to plastic and not the flower.

These pre-packaged glass containers come with a humidity regulating system as well as air tight seal so the flower is always as fresh as possible reducing any chance of becoming dry or discolored.

**Lifter offers a dominantly earthy aroma supported by subtle floral notes with a tiny hint of sourness.**

This delicious-smelling hemp flower will melt fatigue and lift the spirits. Its unique aroma will be the first thing you notice the first time – skunky and yet sweet. Despite their elongated shape, the nugs are dense and frosty, covered in trichomes.

#### **SMELL**

A dominantly earthy smell is supported by subtle floral notes with a tiny hint of sourness. The smell is very pleasant and woody, it makes you want to keep taking it in.

#### **TASTE**

The taste, much like the smell, is earthy. It tastes like sweet grass, wood and bark.

#### **EFFECTS**

This is one of the most cannabidiol rich flowers that we sell. It is rich in cannabinoids other than CBD too which help in the product's energizing effects. When a pick me up is needed, like a cup of coffee without the jitters, this hemp strain is perfect.

### **Elektra offers notes of rich red wine, chocolate and citrus aroma.**

Elektra CBD flower has solid resin content, strong terpenes, and overall great potency thanks to its ACDC mother. It boasts several other beneficial cannabinoids and smells amazing, a mixture of pine and fruity sweetness. Elektra has become the recent favorite strain here at CBD Product Link and there's no wonder why: she its hard!

Elekta's moist, sticky-to-the-touch and dense nugs are medium in size and rich with bright green color. The visual appeal is also something to be noted on this product – you can clearly observe the striking detail of the terpenes covering the flower. This premium batch of hemp is comprised of nice attractive green nugs.

#### **SMELL**

Elektra CBD hemp flower is one of the most aromatic CBD hemp flowers. When you open the bag, the smell is strong and desirable – a bit of a piney sweet smell. The savory scent is appealing.

#### **TASTE**

The piney flavor stands out when and definitely performs on point with any of the primo cannabis. You first taste a hint of sweet citrus before it melts into more earthy flavors. It is very smooth.

#### **EFFECTS**

It took mere moments to feel its effects. The Elektra flower is up there with the premium products. This flower will definitely help you relax and put you in a great mood.

**Special Sauce offers sweet and hoppy aromas and earthy berry flavors.**

Special Sauce is a high cannabidiol strain that contains a unique cannabinoid profile and smell. It works amazingly well to relax and soothe.

Special Sauce CBD hemp flower is a unique in that despite yielding medium to small-sized nugs, it packs serious heat. Its smaller stature loses nothing in potency, with a diverse cannabinoid profile. The dense and aromatic nugs give off a very distinct and special aroma.

**SMELL**

Special Sauce has a distinct smell that keeps us coming back for another whiff. It's a mixture of berries and musk with sweet, hoppy, earthy undertones.

**TASTE**

The taste can be summed up in one word: SMOOTH. Never harsh on the throat or lungs after being consumed. The flavors are somewhat reminiscent of the aroma: some sweetness followed by dark and woody flavors that end in a subtle floral note.

**EFFECTS**

It is awesome for night-time, great to soothe, or simply to put a blanket of calm over the day.

### **Hawaiian Haze offers a floral aroma and taste of tropical fruit.**

Hawaiian Haze, this beautiful evergreen and purple-splashed diamond in the rough was created with the goal to create one of the highest-yielding cannabidiol (CBD) oil plants in existence. This flower does well consumed straight up, as the flavors and effects are pleasing, thanks to the high and diverse terpene and cannabinoid content. These nuggets are frosty and when held up to the light, the shine of the plentiful trichomes are visible.

#### **SMELL**

Hawaiian Haze has a bit of a fainter smell than some of the other flower, a more subtle and discreet aroma than most. It is woody and citrusy with a hint of sweetness.

#### **TASTE**

This CBD flower is gentle. The taste is very easy on the throat and lungs. Similar to its aromatic characteristics, the taste is subtle and alluring. Earthy, a bit of sour hay, with a finish of sweetness.

#### **EFFECTS**

Moments after consumption, aches and stress subside. It is also diverse in that if you smoke a smaller amount, you get effects that are more sativa-like or energetic, while if smoked in a larger amount, one gets a more mellow or sleepy feeling. Users report that it works great before bedtime.

**Canna Berry is a unique cross between Canna Blush and Berry Blossom.**

It is an evenly balanced hybrid of Indica and Sativa. These flowers come from one of our favorite boutique farms where they have been bucked and trimmed all by hand, never being processed by a machine in order to preserve as many of the trichomes as possible. Due to the quality drying and curing, these flowers have an extremely pungent terpene profile that we know you will love.

**SMELL**

Canna Berry has a very strong nose dominating on the front, and a nice bouquet of berries and grapes on the back end. Guaranteed you can't take just one whiff. These terps are fantastic.

**TASTE**

There is no second guessing this flower is fuel heavy, from the nose to the palate and nothing better than that sweet berry and grape finish. A great paring with your favorite cheese and wine.

**EFFECTS**

This is a great anytime flower. It is one of our favorites because of its calming properties while still providing energy to get things done.

### **CBG White offers a creamy, lemon, terpene profile.**

CBG is known for the dominant cannabinoid in this flower, CBG. Initial research on CBG's effects shows promise as an antibacterial agent and an anti-inflammatory. CBG is notoriously expensive to produce, so much so that it's been dubbed the "Rolls Royce of cannabinoids." This flower has the common light greens, browns, and oranges as well as a unique shade of white that is persistent throughout.

#### **SMELL**

The smell is subtle but very woody, reminiscent of hay and cedar. A very refreshing and earthy scent.

#### **TASTE**

Much like the smell, a very clean and subtle woody taste. Nothing about this flower is overpowering, it is calm, subtle and sweet.

#### **EFFECTS**

Mild and pleasant on its own, somewhat similar in nature to CBD. CBG has a very soothing effect on consumption.
